

How to block users in Service Desk

Click 'Admin Panel' > 'Emails' > 'Banlist'

- You can configure Service Desk to reject tickets from certain senders by banning their email address.
- Banned users can still log in to the client portal but they cannot create tickets.
- You can relax the ban on users at anytime

Delete email addresses from the ban list

Removing an email address from the list will automatically lift the ban on the user.

- Open the admin panel (See the last link on the left)
- Click 'Emails' > 'Banlist'
- Select the email addresses you want to remove
- Click 'Delete'

The screenshot shows the 'Banned Email Addresses' interface. At the top, there is a navigation bar with 'Service Desk > Emails > Banlist'. Below this, the title 'Banned Email Addresses' is displayed with a help icon. There are four action buttons: 'Ban New Email', 'Enable', 'Disable', and 'Delete'. The 'Delete' button is circled in red, and a red arrow points from it to a confirmation dialog box. The dialog box has the title 'Please Confirm' and contains the text: 'Are you sure you want to DELETE selected ban rules? Please confirm to continue.' At the bottom of the dialog box, there are two buttons: 'No, Cancel' and 'Yes, Do it!'.
