

How to view billing details and download invoice copy

View billing details

- Log into the platform with an account that is either the account admin or has permission to billing and licensing
- Swap to the 'classic' interface by clicking on the link at the bottom of your screen

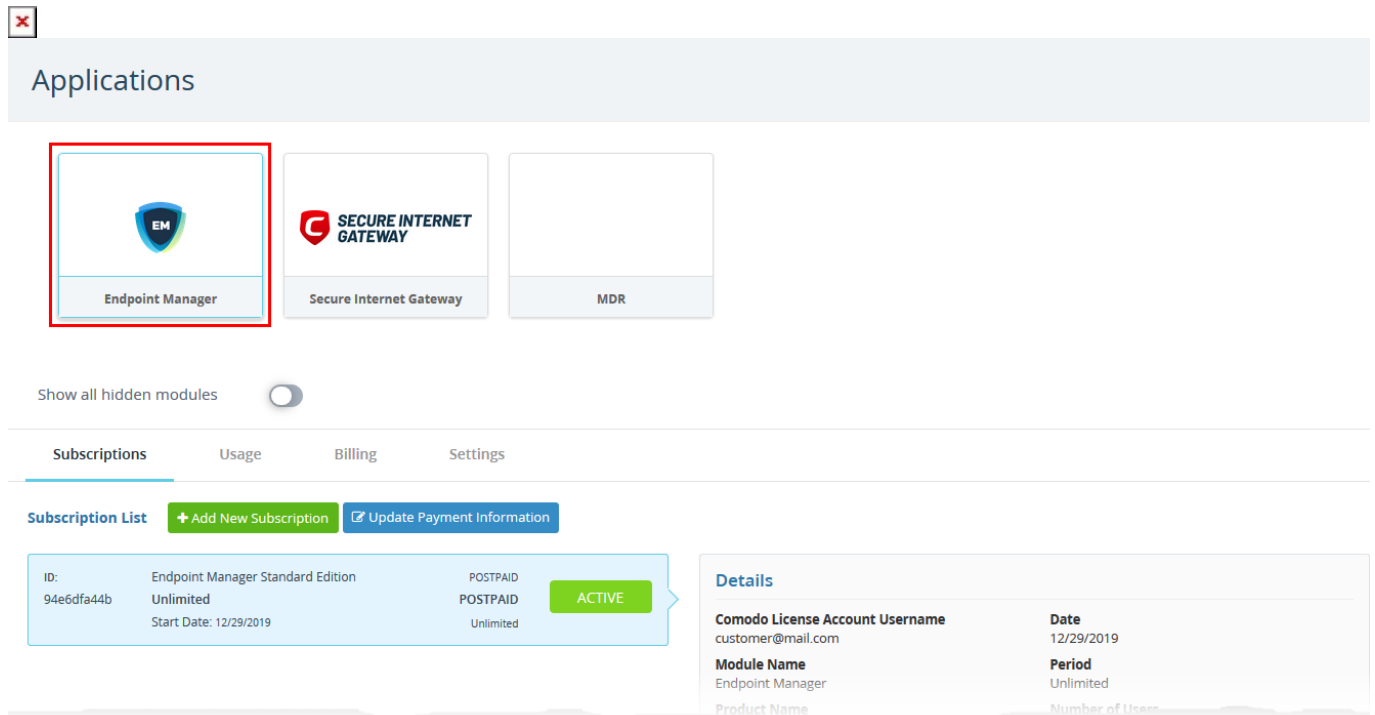

The screenshot shows a security dashboard with a purple header. The header contains navigation links: **Dashboards**, **Security**, **Managed Security**, **ITSM**, and **Management**. Below the header is a secondary navigation bar with icons and labels for **Service**, **Endpoint** (highlighted with an orange underline), **Cloud**, **Audit**, and **Compliance**. The main content area features three summary cards: **Total Alerts** (10227), **Malware Detections (Last 30 Days)** (0), and **Total Devices**. Below these are two charts: **Malware Detections By Hash** (Last 7 Days) and **Alerts By Type (Last 30 Days)**. Both charts display "No data available". At the bottom, a yellow banner contains the text: "To use the classic interface, click [here](#)".

- Click 'Management' on the top and select 'Applications'

- Click an application tile to view its details.

The following image shows details for Endpoint Manager as an example:

Tip: Enable 'Show all hidden modules' to view every available application, including those that are hidden.

- Click the 'Billing' tab

Show all hidden modules

Subscriptions		Usage	Billing	Settings

The billing tab shows the fee details as per your subscription package, discounts applied and the cost incurred for your usage for each billing period. The last three columns show your payment status, invoice and payment date.

- Click 'Download' button in 'Invoice' column to download the invoice of that billing cycle in PDF format. An example is shown below:

INVOICE
