

Integration with Microsoft Office 365

Environment : Comodo Dome Antispam

Summary : Comodo Dome Antispam O365 Integration Guide

Video Tutorial : Uploaded video link will be put here.

CONFIGURING SECURE EMAIL GATEWAY SETTINGS

Office 365 Check on your Dome Antispam

Configure the corresponding inbound settings in Comodo [Dome Antispam](#) to route emails sent to your domain to Office 365.

1. Log in to the your Dome Antispam main **DASHBOARD**
2. Select **SMTP** from the left side menu and then select **DOMAINS** under this **SMTP** part
3. Select **OFFICE 365 CHECK** from the right tab
4. Configure Office 365 check according to below options
 1. Enable Office 365 **SUPPORT**
 2. Activate Office 365 **SENDER DOMAIN CHECK**
 3. Select and Copy your managed **DOMAIN NAMES** of your Office 365 server from left side list to the right

Note: You do not need to input any IP or MX record of Office 365 servers since Comodo Dome [Antispam](#) gets the necessary routes automatically in system background.

CONFIGURING OFFICE 365 SETTINGS

Inbound Flow Set Up on Office 365

1. Log in to your Microsoft Office 365 administrator center account
 1. Click on **ADMIN** from left navigation menu
 2. Click **EXCHANGE** under ADMIN
 3. Click **MAIL FLOW** from left navigation menu.
 4. Click **CONNECTORS** from top navigation menu.
2. Add an Inbound Connector.
 1. Select **PARTNER ORGANIZATION** in From part.
 2. Select **OFFICE 365** in **TO** part.
3. Enter a descriptive name to the **NAME** field for the inbound connector.
4. Choose **USE THE SENDER'S IP ADDRESS**.
5. In Specify the sender IP addresses range field,
 1. **ADD** new connector
 2. **ENTER** the IP address or addresses for the organization you want to add to the safe list. This will be the IP address of your Dome Antispam Server. This information is provided by Comodo to you in the information email after the provisioning step completed.
 3. **NOTE:** You may have Office 365 only accepts rr in range of 24 to 32 (nnn.nnn.nnn.nnn/rr), please modify the rr from SEG instructions to the closest Office 365 allows you to set. For example: 216.104.0.0/19 you can enter as 216.104.0.0/24.
 4. The IP addresses in the screenshots is for just giving an example for you. Please always use

information from the information email coming from Comodo support team as primary source.

6. Choose the **SECURITY RESTRICTIONS** you want.
7. Click **SAVE** to confirm.

Add an email flow rule to bypass spam filtering

Turn off spam filtering in Exchange Online and use your Comodo Secure Email Gateway only

1. Log in to your Microsoft Office 365 administrator center account
 1. Click on **ADMIN** from left navigation menu
 2. Click **EXCHANGE** under ADMIN
 3. Click **MAIL FLOW** from left navigation menu.
 4. Click **RULES** from top navigation menu.
2. Select **BYPASS SPAM FILTERING** from pull-down menu.
3. In the opening RULE window, complete the required fields.
 1. Name: Turn off spam filter in Office 365
 2. Apply this rule if...
 1. Select **THE SENDER**
 2. Select **IP address is in any of these ranges or exactly matches**
 3. In the Specify IP address ranges window, **ENTER** the **SAME IP** addresses from step 5-b of **INBOUND MAIL FLOW SETUP** section above
 4. Click the **ADD ICON** for each range
 5. Click **OK**
 3. Do the following: Set the **spam confidence level (SCL) to...** - Bypass spam filtering
 4. Except if: **DO NOT** add an exception
 5. Audit this rule with severity level: **DESELECT**
 6. Choose a mode for this rule: **ENFORCE**
4. Click **SAVE**

Add an email flow rule to lock down Exchange Online

This accepts only emails from Secure Email Gateway to ensure spammers cannot bypass.

1. Log in to your Microsoft Office 365 administrator center account
 1. Click on **ADMIN** from left navigation menu
 2. Click **EXCHANGE** under ADMIN
 3. Click **MAIL FLOW** from left navigation menu.
 4. Click **RULES** from top navigation menu.
2. Select **RESTRICT MESSAGES** by sender or recipient ... from pull-down menu.
3. In the opening RULE window, complete the required fields.
 1. Name: Only accept inbound mail from SEG
 2. Apply this rule if...
 1. Select **THE SENDER IS LOCATED**
 2. In the Select Sender Location window, select **Outside the organization**
 3. Click **OK**
 3. Do the following: **Delete the message without notifying anyone**
 4. Audit this rule with severity level: **DESELECT**
 5. Choose a mode for this rule: **ENFORCE**
4. Add an exception to the allow email flow from Secure Email Gateway

1. Click **MORE OPTIONS**
 2. Under Except if, click **ADD EXCEPTION**
 3. Select **The SENDER**
 4. Select **IP address is in any of these ranges or exactly matches**
 5. In the Specify IP address ranges window, **ENTER** the **SAME IP** addresses from step 5-b of **INBOUND MAIL FLOW SETUP** section above
 6. Click the **ADD ICON** for each range
 7. Click **OK**
5. Click **SAVE**

Outbound Flow Set Up on Office 365

1. Log in to your Microsoft Office 365 administrator center account
 1. Click on **ADMIN** from left navigation menu
 2. Click **EXCHANGE** under ADMIN
 3. Click **MAIL FLOW** from left navigation menu.
 4. Click **CONNECTORS** from top navigation menu.
2. Add an Outbound Connector.
 1. Select **OFFICE 365** in From part.
 2. Select **PARTNER ORGANIZATION** in TO part.
3. Enter a descriptive name to the **NAME** field for the outbound connector.
4. Choose the way **YOU WANT TO USE THIS CONNECTOR.**
5. Add SEG Relay **FQDN** to: **ROUTE EMAIL** through these smart hosts
6. Add the fully qualified domain name (FQDN) for the purpose of relay messages to this Secure Email Gateway MTA. This FQDN is located in the information email (sent to the administrator after Secure Email Gateway (Dome Antispam) provisioning process has been completed).
7. Choose the **WAY of CONNECTING** to SEG
8. **REVIEW** your settings.
9. Add one **TEST EMAIL ADDRESS** to **VERIFY** this connector.
10. **VALIDATE** this email address.
11. Click **SAVE.**

Add an email flow rule to use the SEG Outbound connector

1. Log in to your Microsoft Office 365 administrator center account
 1. Click on **ADMIN** from left navigation menu
 2. Click **EXCHANGE** under ADMIN
 3. Click **MAIL FLOW** from left navigation menu.
 4. Click **RULES** from top navigation menu.
2. Click “+” sign and Select **CREATE A NEW RULE** from pull-down menu.
3. In the opening RULE window, complete the required fields.
 1. Name: SEG Outbound
 2. Apply this rule if...
 1. Select **THE SENDER IS LOCATED**, a new pop out console will be shown.
 2. In the Select Sender Location window, select **Outside the organization**
 3. Click **OK**
 4. Click **MORE OPTIONS**
 3. Do the following:
 1. **Redirect message to** and then select the **following connector.**

2. Select the **outbound connector** you created for SEG.
4. Choose a mode for this rule: **ENFORCE**
5. Click **SAVE**

Congratulations! You have completed the installation process. **Office 365 is now secured by Dome Antispam** which is Comodo Secure Email Gateway (SEG).
